What makes roofing in Pontcanna different from roofing almost anywhere else in the city? Much of the answer lies in its conservation area status. Many of the homes here are Victorian and Edwardian properties with slate roofs and chimney stacks, and the look of those rooftops matters to the character of the streets. Redland Roofing Cardiff is an independent, family-run roofing business from South Wales that has served Cardiff and South East Wales for over 30 years, and it has experience working in conservation areas such as Pontcanna. For homeowners who want roofers Cardiff residents trust with sensitive work, that experience counts. Like-for-like roof replacement usually falls under permitted development, but conservation areas, listed buildings and any change of materials may need consent from Cardiff Council. That makes honest advice at the start of a project especially important in Pontcanna. The team can explain what a repair or replacement is likely to involve and where consent may be needed before work begins. Services include slate and tiled roof repairs, full roof replacement, chimney repairs covering brickwork, repointing and flashing, lead work and lead joints, ridge tiles, dry verge, guttering and fascias. Every job starts with a free, no-obligation assessment. Customers regularly mention John, who comes out to inspect the roof, explains the problem clearly and shows photos, and sometimes videos, of the issue and the stages of the work. Good slate can outlast the building, so the team will not recommend a replacement if a repair will do, which suits conservation properties where keeping original character is often the priority. The same careful approach applies in neighbouring Canton, Riverside and the Llandaff conservation area.
