Across the residential roads off Merthyr Road in Whitchurch, and right through Rhiwbina, you'll see the same *residential roofers Cardiff* pattern repeated street after street: tidy 1930s semis, a garage tucked to one side, and quite often a conservatory on the back. These are family homes, built to last, but after the best part of a century their roofs need some care. Redland Roofing Cardiff is a family-owned roofing contractor led by John Owen, and the team works right across north and west Cardiff, including Whitchurch, Rhiwbina and the neighbouring streets towards Llandaff and Gabalfa. Many semis in this part of the city have concrete interlocking tiles. Those roofs are usually sound, but the details around them are where problems start. Ridge tiles lose their mortar, lead flashings around chimneys and bay windows tire, and gutters, fascias and soffits start to sag or rot. The garage is a separate story. Most have a felt flat roof, and felt that has been baking in summer and soaking through Cardiff's wet winters eventually splits, blisters or holds puddles of water. Redland Roofing Cardiff repairs garage roofs and offers flat roof replacement using an EPDM rubber membrane laid over new tongue-and-groove sterling board decking, a much longer-lasting finish than tired old felt. Conservatories are the other common request in Whitchurch and Rhiwbina. Older polycarbonate roofs can leak, discolour and make the room too hot in summer and too cold in winter, and conservatory roof replacement is one of the firm's regular services. Chimneys are worth a look too. Many families find their stack is no longer used, and chimney removal is actually one of the most mentioned jobs in the firm's Google reviews, alongside chimney repair and repointing for stacks that are staying. Roofers in Cardiff who know these 1930s houses will check all of it together rather than just the one thing you called about.
