2. **The Ascent:** Once the betting window closes, the aircraft removes. A multiplier starts ticking upward from 1.00 x, rising continuously as the aircraft gains elevation.
3. **The Cash-Out:** Players must manually strike the "Cash Out" button before the aircraft crashes. If effective, the initial stake is increased by the present value at the exact minute of withdrawal.
4. **The Crash:** At an entirely unpredictable minute determined by the RNG, the flight ends. Any active bets that have actually not been cashed out are forfeited.
