What is Big Bass Crash?

Developed through the collaboration of Pragmatic Play and Reel Kingdom, *Big Bass Crash* takes the familiar, precious visual identity of the *Big Bass* slot series and transplants it into a vibrant "crash" format.

For those unfamiliar with the crash game category, the property is basic: an item (in this case, an angler drawing in his catch) moves along an increasing multiplier curve. The multiplier increases in real-time as the round progresses. The gamer's objective is to squander their winnings before the multiplier all of a sudden "crashes" or the line snaps. If a gamer squanders effectively, they win their preliminary stake multiplied by the cash-out value. If the crash takes place before they cash out, the bet is lost.

Unlike traditional slot machines governed completely by static spin outcomes, Big Bass Crash grants gamers a degree of active control over the timing of their wins and losses.
