- **Integrated Lighting and Tech:** Equip each bunk with its own recessed reading light, USB charging ports, and a little built-in rack for phones and glasses. This reproduces the feel of a store hotel.
- **Privacy Curtains:** Heavy linen, velvet, or canvas curtains held on black iron or brass rods provide each sleeper with privacy, light-blocking capabilities, and a relaxing cocoon-like feel.
- **Cohesive Bedding:** Stick to neutral, top quality linens (like crisp white percale or relaxed linen) and layer with textured tosses to keep the overall look fully grown instead of juvenile.

Security Considerations for Adult Spaces

Despite the fact that adults are more coordination-conscious than children, safety remains crucial-- particularly for leading bunks.

- **Guardrails:** Ensure the top bunk has considerable guardrails on all sides, extending at least 5 inches above the top of the bed mattress surface area.
