Betting systems	Money chips	CS2 skins, "skin-coins", or platform-specific tokens
Wheel design	37 numbers (0-36)-- European; 38 numbers (0-36 + 00)-- American	Similar numeric layout; in some cases a "skin-only" wheel that collapses numbers into colour groups
Result verification	Physical wheel, dealer oversight	Cryptographically signed server seed + customer seed (provably-fair)
House edge	2.7% (European)/ 5.26% (American)	Varies-- usually 2%-- 4% depending upon platform & bet type
