The Anatomy of the Wheel

The 54 segments of the Crazy Time wheel are divided into numbers and reward games. Each section offers various payment potentials and probabilities.

2. **Reel 2** displays a multiplier worth (ranging from 2x up to 50x).

If the arbitrarily chosen section and multiplier line up horizontally on the Top Slot, a multiplier is applied to that specific bet or bonus round for the upcoming spin. If the wheel arrive on that section, all wins associated with it are increased appropriately, leading to some of the video game's most excellent payments.

2. Cash Hunt

- **Trigger:** Landing on the Cash Hunt section (2 spots on the wheel).
- **How it works:** Players deal with a huge virtual screen including a grid of 108 random multipliers concealed behind shooting targets. - **The Process:**
 - Players need to select one of 3 flippers (Green, Blue, or Yellow).
 - The host spins the giant wheel.
 - Whichever section the selected flipper points to when the wheel stops is the multiplier granted to the player.
 - Similar to Pachinko, if the wheel stops on "DOUBLE" or "TRIPLE," all multipliers on the wheel boost tremendously, and the wheel spins once again-- scaling as much as an optimum possible multiplier of 20,000 x.

- Focuses mainly on wagering on numbers 1 and 2, which cover nearly 63% of the wheel.
- *Pros*: Provides regular, smaller sized wins, keeping the bankroll stable for longer durations.
- *Cons*: Misses out on the high-paying reward rounds.
- **The Bonus-Hunter Strategy:**
 - Involves putting little bets exclusively on the 4 bonus offer rounds (Coin Flip, Cash Hunt, Pachinko, and Crazy Time).
 - *Pros*: Ensures participation whenever a bonus round is triggered, where the game's highest payouts reside.
 - *Cons*: Can rapidly deplete a bankroll during long stretches where the wheel lands just on numbers.
