Understanding the Top Slot and Multipliers

Before every spin of the main wheel, a smaller sized two-reel fruit machine located directly above the wheel-- called the **Top Slot**-- spins concurrently.

- **How it works:** The Top Slot creates one random wheel sector (a number or a bonus offer game) and pairs it with a random multiplier ranging from 2x to 50x.
- **The Result:** If the primary wheel arrive on the exact section displayed in the Top Slot, the multiplier is used to that spin. If it is a number bet, the payment is multiplied. If it is a reward video game, the multipliers within the bonus round are boosted accordingly.

The Four Crazy Time Bonus Rounds

The primary destination of the video game is its four reward rounds. Gamers who have put a wager on the specific benefit section are granted entry into the mini-game when the wheel arrives on it.

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **Gameplay:** A simple red and blue coin is flipped by a machine. Before the flip, each side of the coin is assigned a random multiplier. Whichever color lands face up identifies the player's payment.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **Gameplay:** The screen displays a huge board featuring 108 random multipliers hidden behind shooting gallery signs (like a duck, a cactus, or a target). Gamers are offered a restricted time to aim and fire a cannon at a symbol of their option to reveal their multiplier.

3. Pachinko

- **Frequency:** 2 sectors on the wheel.
- **Gameplay:** A radiant puck is dropped from the top of a huge Pachinko wall filled with pegs. The puck bounces down randomly up until it lands in one of the slots at the bottom, each including a multiplier. If the puck arrives on a "DOUBLE," all multipliers on the board double, and the puck is dropped again.

4. Crazy Time

- **Frequency:** Only 1 section on the wheel.
- **Gameplay:** Players step behind a red door into a dynamic, surreal virtual world including an enormous 64-segment wheel. The host chooses one of three flappers (Green, Blue, or Yellow). The wheel spins, and whatever multiplier the picked flapper points to is granted. Like Pachinko, this wheel features "DOUBLE" and "TRIPLE" sections, permitting multipliers to reach up to an incredible 20,000 x.
