What is Crazy Time?

At its core, Crazy Time is a live-hosted online gambling establishment game show built around a massive, vertically installed wheel. The game is broadcasted from a high-tech, brightly colored studio including a charming live host who connects with gamers by means of a live chat.

The main goal of the video game is basic: gamers place wagers on which sector the wheel will stop on after a spin. Nevertheless, what sets Crazy Time apart from basic wheel video games (like *Dream Catcher*) is the inclusion of a **Top Slot** and **four interactive perk games** that deal enormous payout capacity.

The Wheel Breakdown

The Crazy Time wheel includes 54 segments. Each section represents either a number (1, 2, 5, or 10) or one of the 4 bonus offer games. The circulation of the sections on the wheel is detailed below:

Segment/ Outcome Variety of Segments on Wheel Payment Odds **Number 1** 21 1 to 1 **Number 2** 13 2 to 1
Number 5 7 5 to 1 **Number 10** 4 10 to 1 **Coin Flip** 4 Activates Coin Flip Bonus **Money Hunt** 2 Triggers Cash Hunt Bonus **Pachinko** 2 Sets Off Pachinko Bonus **Crazy Time** 1 Activates Crazy Time Bonus

As the table reveals, numbers appear far more regularly on the wheel, while the benefit rounds are rarer, making them the most expected moments of any video gaming session.

How a Round of Crazy Time Works

Every single round of Crazy Time follows a structured, busy series:

1. **The Betting Phase:** Players are provided a restricted timeframe (normally around 15 seconds) to place their chips on several of the available wagering spots on the virtual layout. Gamers can bank on numbers, perk

rounds, or a mix of both.

2. **The Top Slot Spin:** Simultaneously while bets are being put, a two-reel slot device placed straight above the main wheel spins instantly. The left reel reveals a bet spot (number or bonus), and the right reel reveals a multiplier (varying from 2x up to 50x). If the bet spot and multiplier align, that multiplier is used to the section for the upcoming spin.
3. **The Main Wheel Spin:** The live host spins the physical wheel.
4. **The Outcome:** When the wheel comes to a complete stop, the pointer indicates the winning sector.
 - If it lands on a **Number**, all gamers who bet on that number receive a payout according to the chances, increased by any Top Slot multiplier if suitable.
 - If it lands on a **Bonus Game**, the video game transitions to a different, immersive bonus round.

Dive into the Four Bonus Rounds

The primary tourist attraction [Bitz](#) of Crazy Time is certainly its four bonus offer features. These minigames offer the most substantial win capacity and transport gamers into totally various virtual environments.

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **How it works:** A simple coin with a red side and a blue side is turned by a mechanical flipper on the screen. Before the flip, random multipliers are designated to both the red and blue sides. Whichever side lands face up wins for the player. If the multipliers are low, a "Rescue Flip" can often be set off for a 2nd opportunity at higher multipliers.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players are provided with a huge screen displaying 108 random multipliers hidden behind shooting gallery targets (such as a rabbit, a chef hat, a cactus, etc). A countdown timer starts, and each gamer needs to aim and fire a virtual cannon at the target of their option. Once time expires, all targets reveal their hidden multipliers, and players gather the multiplier connected with the target they chose.

3. Pachinko

- **Frequency:** 2 sectors on the wheel.
- **How it works:** Inspired by the conventional Japanese arcade game, players are required to a radiant Pachinko wall filled with pegs. The host drops a puck from the top of the board, and it bounces randomly down through the pegs before landing in one of numerous multiplier zones at the bottom. If the puck lands in a "DOUBLE" zone, all the multipliers at the bottom double in value, and the puck is dropped once again for an even larger payout.

4. Crazy Time

- **Frequency:** 1 sector on the wheel.
- **How it works:** This is the ultimate bonus offer round. The host walks through a red door into a surreal, vibrantly colored virtual world featuring a colossal virtual wheel consisting of 64 segments and 3 flippers (Green, Blue, and Yellow). Gamers select among the three flippers before the wheel is spun. The wheel can

include massive multipliers, "DOUBLE," and "TRIPLE" sections. If the wheel arrive at a double or triple value, all multipliers increase, and the wheel spins once again, paving the method for the game's maximum payouts.
