What is the Aviator Game?

Developed by Spribe, Aviator is a social multiplayer game coming from the "crash game" genre. Unlike traditional casino games where outcomes are determined by spinning reels or dealing cards, Aviator focuses on an escalating multiplier represented by an increasing plane.

The concept is simple:

1. **Place a bet** (or more bets at the same time) before the round starts.
2. **View the plane take off**, accompanied by a multiplier that starts at 1.00 x and increases quickly.
3. **Money out** before the plane flies away (crashes).
4. If a gamer squanders effectively, they win their stake increased by the existing value. If the plane flies away before they cash out, the bet is lost.

The unpredictability of when the plane will fly away-- ranging from 1.00 x to theoretically infinity-- creates a high-stakes environment driven by timing and nerve.
