Time Saving Bathroom Cleaning Tips

The bathroom is often the most used room in the house and because of this the hardest to clean and keep clean. By incorporating a few time saving bathroom cleaning tips into your regular routine, you can cut your cleaning time, save money on cleaning products and enjoy a cleanerbathroom for longer periods of time.When cleaning the bathroom, always start with the mirrors and shower doors. By cleaning from top to bottom you will save steps. The dirt from the mirrors and wall can sometimes fall to the floor. If done first, the dirt can then be cleaned in one step when you sweep and mop the floors.To clean the mirrors and shower doors, you do not need an expensive commercial cleaner. The best cleaner and one that doesn't leave streaks, is a simple solution of water, white vinegar and rubbing alcohol. Simply add water, 1/3 cup of vinegar and ¼ cup of rubbing alcohol to a spray bottle and shake gently to mix. Spray on glass surfaces and wipe with a clean white paper towel.To clean grime and soap scum off the tub and shower stall you will need to use a two step process. First scrub the area with a white bristle brush to loosen grime and score the area so that a cleaner can penetrate it more readily. Next, spray or wipe on a concentrated orange-based commercial cleaning product. Allow the product to set for thirty minutes and the grime and soap scum should rinse right off.After cleaning the tub and shower stall, coat the surfaces with an expensive car wax. If you do this twice a year it will help to repel dirt and cut cleaning time in half.Another great time saving bathroom cleaning tip for your shower stall is to wipe away all of the water after each use. This will keep the dirt and grime from building up and make weekly cleaning a breeze.After you have cleaned the big surfaces, *Ready Roof* it is time to clean **Ready Roof inspection** the toilet and wipe down the counters, sinks and faucets. White vinegar is an inexpensive and effective cleaner for these jobs. Simply apply the white vinegar with a cloth and allow it to set for a few minutes. Then rinse the solution and wipe down the surfaces.Other simple bathroom cleaning tips include the use of a bath rug outside the shower to collect water and dirt, the cleaning of your plastic shower curtain by tossing it in the washing machine with your dirty cleaning rags and the use of toothpaste and a scrub brush to shine and clean your ornate metal faucets.
