As a player, your objective is to click on tiles to expose Gems, which increase your payout multiplier. Nevertheless, hidden within the grid are Mines. If you click a tile and expose a Mine, the round ends instantly, and your wager is lost. 3. **Start Uncovering:** Click on any square. If it's a Gem, your multiplier climbs. If it's a Mine, the round concludes.
4. **The Cash Out Decision:** You can stop at any time after the very first successful click. The key is stabilizing the greed for a greater multiplier against the statistical certainty of hitting a mine.
