

A violin player needs more than just the instrument and bow to play comfortably and maintain their equipment in good condition. LVL Music Academy's violin shop stocks a range of essential accessories that students and professional players need on a regular basis, making it a convenient one-stop destination for all things violin in Singapore. <https://speakerdeck.com/patricgxqu> The accessories range at LVL includes violin cases, shoulder rests, chinrests, fine tuners, rosin, strings, cleaning cloths, and polishes. The team can advise on which accessories are most suitable for each player's level, instrument, and physical requirements. Something as apparently simple as a shoulder rest, for example, has a significant impact on comfort and technique, and the choice between different models depends on the player's physical build and the violin's dimensions. For students who are progressing well and beginning to think about performance-quality accessories, LVL's team can help identify the upgrades that will make the most meaningful difference at their stage of development. Not every upgrade is worth the cost at every level, and honest advice about where to spend money is part of the LVL service.

LVL Music Academy | 17 Yuk Tong Ave, Singapore 596322 | +65 8200 4711
