What is Crazy Time?

At its core, Crazy Time is a live-hosted online gambling establishment game show built around a huge, vertically mounted wheel. The video game is relayed from a modern, brilliantly colored studio featuring a charismatic live host who engages with gamers via a live chat.

The main objective of the video game is basic: players position wagers on which section the wheel will stop on after a spin. However, what sets Crazy Time apart from standard wheel video games (like *Dream Catcher*) is the addition of a **Top Slot** and **4 interactive bonus offer games** that offer enormous payout capacity.

The Wheel Breakdown

The Crazy Time wheel contains 54 sectors. Each section represents either a number (1, 2, 5, or 10) or among the 4 benefit games. The distribution of the sections on the wheel is described below:

Segment/ Outcome	Variety of Segments on Wheel	Payment Odds
Number 1	21	1 to 1
Number 2	13	2 to 1
Number 5	7	5 to 1
Number 10	4	10 to 1
Coin Flip	4	Sets Off Coin Flip Bonus
Cash Hunt	2	Activates Cash Hunt Bonus
Pachinko	2	Triggers Pachinko Bonus

As the table reveals, numbers appear a lot more often on the wheel, while the benefit rounds are rarer, making them the most anticipated moments of any video gaming session.

How a Round of Crazy Time Works

Every round of Crazy Time follows a structured, busy series:

- 1. The Betting Phase:** Players are provided a minimal timeframe (usually around 15 seconds) to put their chips on one or more of the readily available wagering areas on the virtual design. Players can wager on numbers, bonus offer rounds, or a combination of both.
- 2. The Top Slot Spin:** Simultaneously while bets are being put, a two-reel slots placed directly above the primary wheel spins immediately. The left reel reveals a bet area (number or reward), and the best reel

exposes a multiplier (varying from 2x up to 50x). If the bet spot and multiplier align, that multiplier is applied to the section for the upcoming spin.

3. **The Main Wheel Spin:** The live host spins the physical wheel.

4. **The Outcome:** When the wheel comes to a total stop, the tip shows the winning segment.

- If it arrive on a **Number**, all players who bank on that number receive a payment according to the odds, increased by any Top Slot multiplier if applicable.
- If it arrive at a **Bonus Game**, the game transitions to a separate, immersive perk round.

Dive into the Four Bonus Rounds

1. Coin Flip

- **Frequency:** 4 sectors on the wheel.
- **How it works:** An easy coin with a red side and a blue side is turned by a mechanical flipper on the screen. Before the flip, random multipliers are designated to both the red and blue sides. Whichever side lands deal with up wins for the player. If the multipliers are low, a "Rescue Flip" can in some cases be triggered for a 2nd chance at greater multipliers.

2. Money Hunt

- **Frequency:** 2 sections on the wheel.
- **How it works:** Players are provided with a huge screen showing 108 random multipliers hidden behind shooting gallery targets (such as a bunny, a chef hat, a cactus, and so on). A countdown timer begins, and each player should aim and fire a virtual cannon at the target of their choice. When time expires, all targets expose their hidden multipliers, and players collect the multiplier connected with the target they chose.

3. Pachinko

- **How it works:** Inspired by the conventional Japanese arcade video game, players are taken to a radiant Pachinko wall filled with pegs. The host drops a puck from the top of the board, and it bounces arbitrarily down through the pegs before landing in among numerous multiplier zones at the bottom. If the puck lands in a "DOUBLE" zone, all the multipliers at the bottom double in value, and the puck is dropped once again for an even bigger payment.

4. Crazy Time

- **Frequency:** 1 section on the wheel.
- **How it works:** This is the supreme bonus offer round. The host walks through a red door into a surreal, vibrantly colored virtual world featuring a gigantic virtual wheel containing 64 sectors and 3 flippers (Green, Blue, and Yellow). Players pick among the three flippers before the wheel is spun. The wheel can feature huge multipliers, "DOUBLE," and "TRIPLE" segments. If the wheel arrive at a double or triple worth, all multipliers increase, and the wheel spins again, paving the way for the video game's optimum payouts.
