What is the Aviator Game Online?

At its core, Aviator is a multiplayer social game featuring an increasing curve that can crash at any time. When a round starts, a virtual plane takes off, and as it acquires altitude, a multiplier coefficient begins to grow.

The primary goal for the gamer is easy: **money out before the airplane flies away**.

If a player squanders successfully, their stake is increased by the present coefficient. However, if the plane flies off ("crashes") before the gamer hits the cash-out button, the bet is lost. The unpredictability [Aviator](#) of when the plane will leave the screen is what develops the thriller and excitement of the game.
