- **How it Works:** Before the flip, each side of the coin is designated a random multiplier. Whichever color lands face-up pays that multiplier to the gamer. It is the most frequent perk round, using busy action.

2. Cash Hunt

- **The Setup:** A huge screen displaying a shooting gallery filled with 108 random multipliers.
- **How it Works:** The multipliers are covered by different symbols (such as a cactus, a target, or a sheriff's badge) and then shuffled. Gamers are given a minimal countdown timer to objective and fire a cannon at a symbol of their choice, exposing the multiplier hidden underneath it.

3. Pachinko

- **The Setup:** An enormous Pachinko wall featuring a glowing pegboard and a series of drop zones at the bottom.
- **How it Works:** The host drops a puck from the top of the wall. As it bounces randomly off the pegs, it ultimately lands in one of the slots at the bottom, which consists of a multiplier. If the puck arrive at a "DOUBLE" slot, all multipliers on the board double, and the puck is dropped again for massive potential wins.

4. Crazy Time

- **The Setup:** The host opens a red door, exposing an enormous, mind-bending virtual world featuring a huge wheel with 64 segments.
- **How it Works:** Players select among three flippers (Green, Blue, or Yellow). The host spins the wheel, and whichever sector the selected flipper indicate is the winner. Just like Pachinko, landing on "DOUBLE" or "TRIPLE" increases all the worths on the wheel and activates a re-spin, leading up to the video game's optimum cap of 20,000 x.
