

Before and After: Stunning Kitchen Remodels in Sumner, WA

If you've ever wondered what a dramatic **kitchen remodel in Sumner WA** can look like, you're in the right place. At Renewal Remodel & Additions, we specialize in taking outdated kitchens and transforming them into beautiful, functional, high-end spaces tailored to each homeowner's lifestyle. In this article, we're showcasing a few of our favorite **Sumner kitchen transformation** projects to give you a clear idea of what's possible in your own home.

Project 1: From Dark and Dated to Bright and Modern

The Challenge:

This Sumner homeowner had a kitchen stuck in the early 90s — dark wood cabinets, fluorescent lighting, and a closed-off layout that separated the space from the living room. The goal was to open up the floor plan and bring in more light.

The Transformation:

- Removed a dividing wall to create an open-concept layout
- Installed custom white shaker cabinets with under-cabinet lighting
- Added a large island with quartz countertops and seating for four
- Upgraded to stainless steel appliances and modern pendant lighting

The Result:

The kitchen is now the centerpiece of the home. It's brighter, more functional, and perfect for entertaining. The new layout seamlessly connects to the living and dining spaces, giving the home a more expansive feel.

Project 2: A Farmhouse-Inspired Kitchen with Timeless Charm

The Challenge:

This family wanted to embrace the farmhouse style while upgrading their kitchen's functionality. The existing layout lacked flow, and storage was a constant issue.

The Transformation:

- Reconfigured the layout for better workflow and accessibility
- Added a large apron-front farmhouse sink and matte black fixtures
- Used reclaimed wood shelving and white subway tile backsplash
- Installed a built-in pantry and deep drawers for smart storage

The Result:

This Sumner kitchen transformation balanced rustic aesthetics with modern convenience. The timeless look is enhanced by high-end materials and thoughtful design choices that make cooking and gathering more enjoyable.

Project 3: Contemporary Luxury with Custom Finishes

The Challenge:

A couple who loves to cook and entertain wanted a luxury kitchen that matched the rest of their upgraded home. Their current kitchen had builder-grade finishes **Tacoma remodel company** and a cramped workspace.

The Transformation:

- Custom walnut cabinetry with integrated lighting
- Oversized waterfall island with Calacatta quartz
- Built-in wall oven and hidden appliance storage
- Bold backsplash with glass mosaic tile

The Result:

The finished kitchen exudes luxury and personality. It's not just visually striking — it's also designed with efficiency and ease of use in mind. Every appliance, cabinet, and light fixture serves a purpose.
