

For more severe hail damage covering multiple panels with numerous dents, Hail Solutions Paintless Dent Repair typically estimates up to about a week for a complete repair. This longer timeline reflects the methodical nature of paintless dent repair, where each individual dent requires careful attention rather than the faster bulk approach of filler and repaint. A realistic timeline is provided after an in person inspection, giving Kansas City metro drivers a clear expectation before committing to the repair process.

Hail Solutions Paintless [hail dent repair service](#) Dent Repair | 2109 E Kansas City Rd, #22, Olathe, KS 66061 | (816) 451-1455

Even at the longer end of this range, severe hail damage repair through paintless technique remains generally faster than traditional body shop timelines for comparable damage. For an accurate timeline on severe hail damage repair, call Hail Solutions Paintless Dent Repair at (816) 451-1455.
